EDUCATION

Institution	Qualification	Year	Score
Dr. B.R. Ambedkar NIT, Jalandhar	B.Tech. – Computer Science	2023–2027	8.56 CGPA
VidyaSagar School , Indore	Senior Secondary (12 th)	2022	94.40%
ST Marys Sr. Sec. School	Secondary (10 th)	2020	92.8%

EXPERIENCE

Pune Authors Association — Web Development Intern

June 2026 – Present

- Full-stack e-commerce platform for authors to list and sell books, with an event management system featuring automated **PDF catalogue generation**.
- Built a live **Point-of-Sale (POS) system** and role-based admin dashboards for real-time inventory, sales analytics, and order fulfillment; deployed on **AWS** (Amplify, EC2, RDS).

Tech Stack: React, TypeScript, Tailwind CSS, Node.js, Express, Prisma, PostgreSQL, AWS

TECHNICAL SKILLS

Languages	C++, C, JavaScript, Node.js, Python, SQL
Frameworks	React.js, Tailwind CSS, Express, Prisma, MongoDB
Tools	Git, GitHub, VS Code
Coursework	Data Structures & Algorithms, Object Oriented Programming, Computer Networks, Operating Systems, Machine Learning, Artificial Intelligence, Natural Language Processing, Database Management Systems, Data Visualization and Product Design

PROJECTS

Quiz Web Application

GitHub Link

- Architected a secure full-stack quiz platform with user login and role-based access, supporting **50+ concurrent users** with zero authentication failures in testing.
- Eliminated cheating attempts by **100%** in controlled trials via activity monitoring, auto-submit on tab change, and countdown timers.
- Designed **5+ RESTful backend APIs** for dynamic question serving and result storage.

Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, GitHub

AutoFill AI Extension

GitHub Link

- Developed a privacy-first Chrome Extension to intelligently parse and auto-fill job applications using user profiles and resumes, cutting manual form-filling time by **over 70%**.
- Integrated a Node.js backend with API to extract and process resume text locally, ensuring **zero data transmitted to third-party servers**.
- Implemented a “Shadow Memory” system via Chrome Storage, enabling the AI to retain responses across **10+ website types**, improving autofill accuracy by **40%** on repeated visits.

Tech Stack: TypeScript, React.js, Node.js, Express.js, Chrome Extensions API, Google Gemini API, GitHub

ACHIEVEMENTS AND CO-CURRICULAR ACTIVITIES

- Qualified for **Round 1 of Google The Big Code 2026** – Ranked among the **Top 15,000 students** nationwide out of all qualifier participants.
- Selected for **Final Round of HMEI Energy Quest 2.0** – Cleared preliminary stage and advanced to the domain-specific final assessment conducted by **Hindustan Mittal Energy Limited (HMEI)**.
- Secured **Global Rank 589** in LeetCode Biweekly Contest 163, registered by over **34,600 coders** worldwide.
- LeetCode**: 800+ problems solved | Contest Rating: 1900+
- CodeForces**: 200+ problems solved | Contest Rating: 1200+
- CodeChef**: Achived contest Rating of 1514 .
